ORDER

- The first layout should contain: "+ new user" button, "hide disabled user" checkbox, "Save User" button. This layout should be on top of other layouts and the buttons should be in one corner each. There should be a checkbox next to the "+new user" button.
- The second and third layouts will be side by side under the first layout.
- You can adjust the margin values to your liking so as not to overdo it.
- The second layout should contain a table consisting of 4 columns and these columns should be named as ID, User Name, Email, Enabled, respectively. All columns in this table should be arranged so that they can be sorted in descending or ascending order.
- In the third layout, there should be a 'New User' label and it should be aligned on the top and left.
- also in the third layout, there will be 6 components, respectively, textbox1, textbox2, textbox3, textbox4, combobox, checkbox. and all these components should be one under the other. On the left side it will read User Name: , Display Name: , Phone: , Email: , User Roles: , Enabled:
- Roles should have this 3 Strings -> Guest, Admin, SuperAdmin
